

Author-entry cohorts and academic impact in the UK Biobank literature (2015–2025)

Author first-entry cohort

- 2015-2017 foundational entrants (n=4,464)
- 2018-2020 expansion entrants (n=17,343)
- 2021-2023 consolidation entrants (n=31,738)
- 2024-2025 recent entrants (n=35,117)

Note: authors are grouped by the year of their first Showcase+ publication inside 2015–2025. Paper and citation contributions use fractional co-author credit. Top-decile paper credit uses the citation cut-off measured for each (year, FOR L4 field) against the whole database — not a threshold pooled across years.
